

AMENDMENT TO THE ABSTRACT OF THE DISCLOSURE

In the Abstract of the Disclosure:

Please amend the Abstract of the Disclosure on page 64 to delete the words "is disclosed which" in the first sentence of the Abstract of the Disclosure. A complete copy of the Abstract of the Disclosure including marked-up language to show the changes made in the Abstract of the Disclosure in this Amendment appears below.

An improved snow plow for use with light and medium duty trucks ~~is disclosed~~ which has an impact-absorbing mechanism which absorbs the shocks of both the tripping of the snow plow blade upon striking an object and the spring-biased return of the snow plow blade to its original position. Impact-absorbing members made of a polymeric material are mounted in pockets contained in the pivot support structure of the snow plow blade support structure, and portions of the snow plow blade frame impact the impact-absorbing members prior to the snow plow blade reaching either a tripped position or a trip return position. The impact-absorbing members are highly resistant to damage even when absorbing large shocks caused by substantial impacts, and are easily replaceable when their lifetime has been expended.
